Items that may require council action: None

Items that may require budget/finance coordination:

- Review the proposed OSM budget regarding recommendation of 10% of the FELC 2010 budget be offered for Benevolence.
- Review the decision to offer \$500 College Covenant Scholarship for the 2010 spring semester.
- Review the decision to decrease the College Covenant Scholarship for 2010-11 school year to \$250.

Ministry team minutes:

- Finance/Budget review: Budget reviewed. See above. Any decision that is made regarding the College Covenant Scholarship, if there is a change in policy, should be followed up with a letter to parents/students.
- ECHOES would like to have a more direct input into where profits are directed with regard to Benevolence, rather than placing the monies into the FELC Benevolence budget. No decision was made, discussion tabled.
- Mission Trips: Diane presented and reviewed a document entitled "Mission Trip Options (with minimal planning by FELC)". Discussion followed. The FELC Trust could possibly subsidize the trip for church members.
- North Site Building use: There seems to be some inconsistencies regarding building use, and when a group pays for the privilege of using the buildings and when they are not asked to pay. The Support MinistryTeam may have more information as well as a copy of the building use policy.
- Reviewed the 2009 goals. Dana will meet with Pastor Mary to continue the review.
- Reviewed the plan for the Fill the Trailer activity. A suggestion was made that church members receive an email or possibly phone members to remind them of the activity.
